New York City

Attention of Secretary

Dear Sir:

Could you furnish me with the names of the one or two outstanding women numismatists in either New York City or a nearby town?

Also, I would like to know the number of women in the United States who engage in this work, in comparison to the number of men interested in the science of coins.

I am writing a series of sketches on unusual occupations for women, and would appreciate this information, or your advising me as to where I may obtain it.

Thank you for your attention to this request.

Sincerely,

Mary Jacob
